

"No one would ever imagine your parents past sixty. They seem to have more energy and vitality than most people of middle age."

When the "Sunset Days" of life arrive, the recuperative powers of youth begin to wane and the need of strengthening, easily digested, quickly assimilated food is felt—something that will build up the wasted tissues and revive the nervous force without overtaxing the digestive function.

## Pabst Extract

### The Best Tonic

is an ideal food-drink for the aged—"the staff of life" in highly concentrated liquid form—rich in tissue building, muscle building elements of pure malt combined with the tonic properties of hops. It is easily and quickly assimilated by those whose digestive organs are greatly impaired. By taking a small amount of Pabst Extract, The "Best" Tonic, before each meal, the quantity of solid food can be greatly reduced and more real nourishment obtained.

In addition to its strengthening properties, it soothes and quiets the nerves, bringing sweet, refreshing sleep, which is so essential to the aged.

Pabst Extract is The "Best" Tonic to build up the overworked, strengthen the weak, overcome insomnia, relieve dyspepsia—to help the anaemic, the convalescent and the nervous wreck—to prepare for happy, healthy motherhood and give vigor to the aged. Your physician will recommend it.

Warning: Cheap imitations are sometimes substituted when Pabst Extract is called for. Be sure you get the genuine Pabst Extract. Refuse to accept a substitute. No "cheap" extract can equal Pabst in purity, strength and quality.

The United States Government specifically classifies Pabst Extract as an article of medicine—not an alcoholic beverage.

## Las Cruces and the Mesilla Valley

### WATER RIGHTS DATA NOT YET COMPILED

Las Cruces, N. M., May 9.—Some months ago the board of directors of the Elephant Butte Water Users' association employed Holt & Sutherland of this city to institute the necessary legal proceedings for the ascertainment and adjudication of prior water rights under the Elephant Butte dam. The employment referred to involved a vast amount of detail work in the preparation of the suit, it being necessary to procure complete and accurate lists of all owners of water rights upon the Rio Grande in New Mexico under the project, and of all claimants of such rights.

Under authority of the board of directors properly qualified persons in Sierra and Dona Ana county were employed to compile such data, but their labors have not yet been completed. Under the law it is necessary that the question of water right priorities be adjudicated before the project can formally be opened. The preparation of the suit to comply with these conditions involves the care and labor of detail work, and on account of the conduct and prosecution of the same after its institution will not only require great care but must necessarily consume considerable time, and no inconceivable amount of expense.

However, the work is being carried along as rapidly as possible and suits will be brought as soon as the data is fully compiled, so that everything in this section will be ready for the final approval of the reclamation service before the dam is completed sufficiently to allow of the turning in of the water.

### CORN GROWING CONTEST GROWING IN INTEREST

Las Cruces, N. M., May 9.—The corn growing contest organized by Prof. H. H. Schutz under the auspices of the New Mexico Agricultural college, is awakening considerable interest.

Through the county and letters are being received every day asking for more particulars and requesting seed for planting. The pound of seed corn offered by the college to all boys who enter the contest will plant a full acre of land. These boys can raise good crops from this seed, and on account of the fact that it is selected and acclimated they can also sell a considerable quantity next year from this crop to those farmers who want the very best seed for their own planting.

Prof. Schutz is preparing a pamphlet which will give information as to the method to be pursued in selecting the best 100 ears of corn and how to keep them for the next year's planting.

Many professors at the college figure that the boys in this contest can make \$2 a bushel from their corn by selecting the best ears and selling as seed corn. The ordinary price for corn in this section is about 85c a bushel, and even at this price there is a good profit from the crop, as the yield is much larger here than in the corn growing states. Most of the contestants have asked for the seed of the Hickory King corn which would indicate that this is the best known variety in this locality.

**MANY COONS BEING KILLED ALONG THE RIO GRANDE.**  
Las Cruces, N. M., May 9.—The farmers living along the Rio Grande north of Dona Ana in the old bosque lands have been trapping and killing a large number of coons during the past few weeks. The animals are beginning to be a great nuisance and have ruined a number of gardens so the farmers have been setting traps and using coon dogs to exterminate them as much as possible. A number of fine skins were brought into Las Cruces yesterday from the section of the valley. Many coyotes and wild cats are also being killed by guns, traps and poison all through the river bottom section and also in the cattle range country.

**TO INCREASE STOCK.**  
Las Cruces, N. M., May 9.—The First State bank of Las Cruces has filed papers to increase its capital stock from \$50,000 to \$50,000, the increase to be in cash of the cash on hand is completed and the bank installed therein.

### TO SHIP CATTLE TO DENVER, COLO.

Las Cruces, N. M., May 9.—Eight hundred and fifty head of cattle were brought in to Las Cruces yesterday to be shipped to Denver. W. W. Cox, C. T. Turney and the Isaacks and Mossman ranches furnishing the stock. The sale was made early this year, the price ranging up to \$25 per head. The cattle were taken liberally, the cutting being less than has been common here in former years. Saturday at Aden, Kerr, Latham and Hall shipped 400 head to the same firm at Denver and tomorrow there will be about 500 head shipped from Magdalena.

**OFFICERS ELECTED BY LAS CRUCES Y. M. C. A.**  
Las Cruces, N. M., May 9.—The board of directors of the Y. M. C. A. of the New Mexico Agricultural college, at its recent meeting, organized for the ensuing year by electing Prof. S. R. Mitchell as chairman and C. C. Briggs as secretary. The following committee, executive committee, S. R. Mitchell, J. E. Mundell, J. R. MacArthur, H. B. Hadley and C. C. Briggs; finance committee, J. A. Anderson, H. D. Bowman and A. Laferriere.

A special committee consisting of R. L. Young, H. S. Hammond and J. W. Kinney was also appointed to negotiate at once for a permanent Y. M. C. A. secretary of experience.

**MORE VALLEY LAND IS WITHDRAWN FROM ENTRY**  
Las Cruces, N. M., May 9.—Notice has been received from the local United States land office from the general land office at Washington that lots 1 and 2 of section 32, township 13, south of range 4 west, are withdrawn from entry and all other forms of disposal have been rescinded. The 25 names have been signed up and quite a number of people have been left out who desired to make the trip, but since this city was limited to 25 tickets these people have been forced to forego the trip. The main scheduled to leave here at 8 o'clock on Wednesday morning.

**WILL VISIT THE DAM SITE**  
Las Cruces, N. M., May 9.—Las Cruces has been allotted 35 representatives on the excursion from El Paso to the site of the Elephant Butte dam, which will be run tomorrow. The 35 names have been signed up and quite a number of people have been left out who desired to make the trip, but since this city was limited to 25 tickets these people have been forced to forego the trip. The main scheduled to leave here at 8 o'clock on Wednesday morning.

**MORE HOGS FOR THE VALLEY BOUGHT BY RANCHMEN**  
Las Cruces, N. M., May 9.—F. A. Pope, who bought the Priest ranch north of Dona Ana, has purchased a number of fine hogs and intends to go into the hog raising business as a side line with his alfalfa. This branch of the live stock industry has paid better than cattle or sheep in this end of the territory and a large number of farmers are commencing to pay considerable attention to it.

**LAS CRUCES MINOR HAPPENINGS.**  
Las Cruces, N. M., May 9.—W. A. Smith, who has been on special duty at the H. C. Newberry ranch in the American Bend colony, a picnic being held on the river bank opposite old fort Selden attended by the Newberry, Sutherland and Case families.

Capt. Philip E. Deuser, of Co. A, First infantry of the New Mexico national guard, left last evening for San Diego, Cal., where he will remain for several days studying the maneuvers of the United States troops stationed there.

Mrs. C. P. George and three daughters have arrived from Washington, D. C., to make their home in this city. Maj. C. P. George, the husband and father, is in charge of the department at the Agricultural college. The brick work has been started.

on the new Mitchell room on Main street.

One case of scarlet fever has been reported from Dona Ana and it is thought that the directors of the public schools there will close the same for the year on this account. Every precaution is being taken in Dona Ana and in Las Cruces to stop the spread of the disease.

**MARRIED IN LAS CRUCES.**  
Las Cruces, N. M., May 9.—John D. Forbes and Miss Ral Daley were married in this city yesterday, going from here to the Rhodes ranch just east of Mount Selden, where they will spend a week or two and then make their home at the American Bend. J. W. Forbes, father of the groom, was down from the American Bend to witness the ceremony, as was Mr. and Mrs. John Rhodes. Mr. Forbes is a former cattle man of this section of the country and now engaged in farming at the American Bend, while his wife is an El Paso girl.

**DINNER PARTY.**  
Las Cruces, N. M., May 9.—Mrs. H. C. Newberry, Mrs. Sam Newberry, Mrs. John G. Stewart and Mrs. C. D. Case gave a dinner party today at the Newberry ranch at the American Bend, in honor of the wedding of John Forbes and Miss Ral Daley of El Paso. About 30 people were present at the dinner, which was served as an old style country meal, with the farm trimmings, everything on the table having been raised on the Newberry ranch.

**WEDDING ANNOUNCED.**  
Las Cruces, N. M., May 9.—Miss Mabel Parks, principal of the Mesilla Park public schools, has gone to her home in Lake Valley, N. M., where she will be married to James Poe, an alumnus of the New Mexico Agricultural college.

**ENTERTAINED AT RANCH.**  
Las Cruces, N. M., May 9.—Dr. C. L. Hill and family entertained on Sunday at their Hillside ranch just north of Dona Ana, Mr. and Mrs. T. French and Mr. and Mrs. R. H. Sims of this city being house guests for the day.

## CHANGE IN WOMAN'S LIFE

Made Safe by Lydia E. Pinkham's Vegetable Compound.

Graniteville, Vt.—"I was passing through the Change of Life and suffered from nervousness and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter."—Mrs. CHAS. BARCLAY, R.F.D., Graniteville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been curing woman's ills such as inflammation, ulceration, fibroid tumors, irregularities, periodic pains and nervous prostration, and it is unequalled for carrying women safely through the period of change of life.

Mrs. Pinkham, at Lynn, Mass., invites all sick women to write her for advice, for advice is free, and always helpful.

### Too Much Water on the Hair a Mistake

(From Toilettes of Today, Paris.)

"If your hair is becoming dry and brittle, breaking off and losing color, follow the lead of the many who have taken up the new method of dry shampooing," said Claribel Montague in her lecture on "Beauty" at the Theatre Momet, Thursday. "It has been proven that too frequent wetting the hair is a mistake."

"Even those who were devoted to shampooing with eggs now use therax and orris root, and they declare that this dry shampoo makes the hair as bright and fluffy as ever did eggs."

"To make the dry shampoo mix four ounces of powdered orris root with four ounces of therax. Sprinkle a tablespoonful of the mixture on the head and brush it well through the hair. Do this once or twice a week if the hair is thin and scanty and you will soon notice a new growth of hair. Nothing makes the hair so beautifully fine and lustrous as this dry shampoo."

#### A Cure for Tuberculosis

After so many others failed, it remained for Dr. Charles F. Aycock, of Los Angeles, himself a sufferer from the dread disease, to discover a specific that positively cures tuberculosis.

This specific destroys the tubercle bacilli. It is then simply a matter of making the most of a patient's remaining vitality to insure permanent recovery.

Mrs. John Bassett, of Monrovia, California, a sufferer from tuberculosis, testifies that she was completely cured by Tubercleicide, after trying various treatments and being informed that no medicine or physician on earth could do her any good.

Full particulars concerning "Tubercleicide," together with testimonials from others who have been cured by the treatment, will be mailed free upon request. Address

## THE CASH INTRIGUE

BY GEORGE RANDOLPH CHESTER  
Copyright, 1909, By the BOBBS MERRILL CO.

(Continued From Yesterday.)

"Because he alone, aided by Breed's money, was able to destroy a tremendous institution like the Stock Exchange," returned Blagg heatedly. "It should have been wiped out of existence, no doubt, but in the process of breaking it up thousands of helpless poor were thrown out of employment and faced starvation, and these are the people who invariably suffer. Then Kelvin, by merely opening his mouth with Breed's consent, stops the panic. What does he do? He issues to the press this morning an announcement that the cash drain has stopped (that Breed no longer requires shipments of actual money for his bread, and that \$100,000,000 of currency, a very small percentage of what he has taken in, is to be put back into circulation. What happens next? Immediately confidence will be restored; people will go back to work. Don't you see the monstrous thing in this? The very lives of hundreds of thousands of men, women and children have depended upon this man's word! It is monstrous! Some day that system will be swept away, and with it must be swept young Kelvin and all his kind."

"You talk like Kelvin himself used to talk out on the ranch," Rensselaer remarked. "Kelvin has his own dreams of reform. You ought to compare notes."

"I doubt if our dreams would be found to be of the same stuff," returned Blagg grimly. "The only ones benefited by his activity are a very few of his own kind, Breed and himself chiefly. Take the gardener out there. He and his family would have starved had not Kelvin personally secured them these places, because he used to board with them when he was poor."

"See the sunshine and hear the little birds twitter," blippantly interrupted Rensselaer. "In the meantime would it not be a pity to sweep out of existence such a tall, well built, good looking, decent sort of chap as Kelvin?"

Phillip and Elsie had by this time left the garden and were now walking slowly toward the house.

"Yes," Blagg admitted, "it would, and it makes it all the harder when you see so beautiful a girl as that looking up at him with that amount of adoration."

Lillian Breed, coming from a cross path just behind Phillip and Elsie and half concealed by shrubbery, stopped instantly as she saw them, clutching her hand upon her breast and half crouching.

"Look at that girl!" said Rensselaer. "In figure she is positively the most beautiful creature I have ever seen. But she is beautiful like a cat, like a tigress."
